Collective Insights Consulting Recognized as a Microsoft Security 20/20 Partner Awards Finalist for Azure Security Deployment Partner of the Year

ATLANTA, Georgia, USA — 04/20/2021— Collective Insights Consulting today announced it has been named a finalist for the Microsoft Security 20/20 Azure Security Deployment Partner of the Year award. The company was honored among a global field of industry leaders for demonstrating excellence in innovation, integration, and customer implementation with Microsoft technology.

“Microsoft has always been a leader in collaboration and productivity solutions,” said Partner, Seth Ryan. “Today, they are one of the most innovative and progressive technology providers in the world. We have been impressed by their current capabilities and the vision that they have for the future of cloud, collaboration and security. Collective Insights is proud to partner with Microsoft to continue to bring secure digital transformation to our mutual clients across the globe.”

At the second annual Microsoft Security 20/20 awards to be held May 12, 2021, we will celebrate finalists in 18 categories spanning security, compliance, and identity. Collective Insights Consulting has been nominated as a finalist for Azure Security Deployment Partner of the Year.

“The pandemic has forever changed our perspective on the world, the role of technology, and how we work, learn, and live,” said Rani Lofstrom, Senior Product Marketing Manager, Microsoft Global Security Partnerships. “In recognition of our new reality, the theme for the Microsoft Security 20/20 Awards this year is ‘Perspective—Through the Looking Glass.’ The awards ceremony this year will honor our security partners who have gone above and beyond

during an unprecedented time of change to support, secure, and protect remote workers everywhere.”

The Microsoft Intelligent Security Association (MISA) was established to help further the security ecosystem, fostering an environment where solution providers can collaborate to create a future that’s safer for people and organizations alike. This year, the industry veterans in MISA will vote to select the winners of the Microsoft Security 20/20 awards, providing an opportunity for colleagues to honor their peers for delivering exceptional work to our shared customers.

Collective Insights solves for your challenge—not a generic one. Yours is unique and we take the time to hear that difference. Not bound to playbook-style approaches yet diverse in our collective expertise, we work with you to build the solution that takes your business a step forward. We believe a partnership is defined as much by trust as it is results. So, we roll up our sleeves, challenge the status quo and deliver strategies you can use and innovative outcomes you can measure.
